Reforms in Coal sector

†3721. SHRI RAM JETHMALANI:
SHRI RAJ MOHINDER SINGH MAJITHA:

Will the PRIME MINISTER be pleased to state:

(a) whether it is a fact that the coal sector in the country needs wide ranging reforms;

(b) if so, whether it is also a fact that Government have submitted a proposal to sell coal through bidding in open market with a view to provide coal to common man in the first phase;

(c) if so, the details in this regard; and

(d) the percentage of coal out of total production to be sold through such bidding?

THE MINISTER OF STATE IN THE MINISTRY OF COAL (DR. DASARI NARAYANA RAO): (a) Yes Sir. An Expert Committee has been constituted in the Ministry of Coal to draw up a road map for the coal sector.

(b) to (d) Government have approved sale of 10 million tonnes of coal through electronic auction on internet for the year 2005-06 on trial basis which constitutes 2.9% of total coal production of CIL. The quantity of 10 million tonnes will be distributed amongst CIL subsidiaries. The auction will start in all CIL subsidiaries in April/May, 2005. E-auction will be open to both consumers and traders. It is expected that with e-auction small consumers will have access to legal channel to meet their requirement of coal. Malpractices and black marketing of coal could be curbed to a substantial extent.
